Marston Thorold Primary School—Science

Topic : Seasonal Change	Autumn 1: Year 1	Strand—Physics

What will I know by the end of the unit?
I can name the **seasons** and know about the different kinds of **weather** in each season.

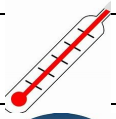

Vocabulary		
	Sun	Gives us heat and light.
	Clouds	Where rain and snow comes from.
	Wind	Moving air that can be a gentle breeze or a strong storm.
	Snow	When the water in clouds freezes, snowflakes are formed and fall to the ground as snow.
	Temperature	How hot or cold it is.
	Winter	Coldest season. Season with the shortest days. Most trees have no leaves.
	Spring	Leaves and flowers begin to grow as it gets warmer.
	Summer	Warmest season. Season with the longest days. Trees have all their leaves and fruits begin to grow.
	Autumn	Leaves start to turn orange, red, yellow and brown then fall off as the weather gets colder.
