Shhhh.... Top Secret Spy Information

Save the Tower, save the Falcons!

The miserable malcontent, Ivor Grudge, is up to his old tricks again. This time he has planted a device in the Bell Tower of St Wulfram's Church. The device is set to explode at the stroke of midnight. You must act quickly to find the code to de-activate the device and save the Church and the resident Peregrine Falcons who nest there.

Ready to save the day?

We need super-secret agents to prove their amazing clue-solving skills. Your mission brief is above, your instructions are below. This is a real-life self-guided adventure!

Sneaking around on your mission

You don't need a map to solve your Treasure Trail. The directions will lead you from start to finish. If you miss an answer along the way, simply retrace your steps and try again.

Completing the mission

Every sneaky clue you answer on your Trail can be entered into THE MISSION ANSWER GRID on the back page of your Trail booklet. There are green shaded boxes in the grid, matching numbers or letters in THE COMBINATION BOX that can be crossed off. At the end of the Trail, you should be left with just four - THE SOLUTION CODE. Mission accomplished!

Stuck on a clue?

If you can't solve a tricky clue, text us at HQ. We'll use our intel to track down the correct answer and text it back to you (small network charges may apply). So that your phone isn't triangulated by enemy forces, you can only use this Secret Messaging Service three times.

Text the word CLUE to 88802, followed by a space then your 10-digit unique reference number (found on the back of this Trail) and the 2-digit clue number that you are stuck on. e.g.

	Space												Clue No. (2 digit)
CLUE		0	1	2	3	4	5	6	7	8	9	0	7

Keyword Example Unique Reference Number

Mission Brief

This Trail takes you on good walking paths around the streets and along the riverside of this fascinating old town, steeped in history and curiosities.

The nearest pay and display car park is in Conduit Lane, (NG31 6PB).

Let's Go

The Trail starts in Conduit Lane, off Market Place, just down from The Angel and Royal Hotel on High Street.

Warning

The Trail requires you to cross many streets in the town. Please take care and cross at the designated crossing points wherever possible.

Clue 01

For an easy starter, look at the Conduit and find the name of the Mayor who had it repaired in 1927. Now record the name, leaving no spaces, in the answer grid on the back page of this Trail booklet.

Fact File

In 1314 the Greyfriars established a water conduit to their house in Grantham. In 1597 the corporation built the present conduit, followed by several restorations in the 18th & 19th centuries.

Clue 02

Now cross Conduit Lane carefully to the Market Cross, in the image in the next box, and then look around you to record a date whose digits add up to fourteen.

Photofile

Fact File

The Market Cross, the historic centre of the town, represents the sun in the Orrery of the Solar System, created by sculptor, Paul Lewthwaite. Also featured across the Square are the Earth and moon, on a column, and Venus on a smaller column.

Directions

Now walk up Market Place towards The Angel and Royal and then turn left along Watergate. Look for this next Clue on the left as you go.

Clue 03

Keep your eyes open for the 'Flying Squad'. Then you can record the name of the place they hang out at.

Directions

Continue along past the Nobody Inn, cross Union Street and then, at the next traffic lights, cross at the crossings to get to the right hand side of North Parade, opposite the Catholic Church.

Clue 04

Find the gold engraved plaque on the wall and record the fourth word of the third line of writing on it.

Fact File

Margaret Robert's (Thatcher) school reports from Kesteven and Grantham Girl's School show hard work and commitment, but not brilliance!

But she did get to Oxford and she also qualified as a Barrister in 1953.

Directions

Walk along Broad Street, keeping on the left and continue round to the right into Brownlow Street to look for your next Clue.

Clue 05

When you find 1653 on a wall you can record the title and name of the one who endowed this place.

Directions

Now turn left along Brook Street to the pedestrian crossing in front of The King's School. Cross carefully here and continue along the other side of Brook Street beside The King's School.

Clue 06

Look for information there about a captain. Find the number of combats he took part in and add this to his age when he died.

Clue 07

Above the door are two pelicans feeding their young. Between them is a date in Roman Numerals. You can use the aide inside the back cover of your Trail booklet to record it.

Directions

Continue now across Castlegate and along Manthorpe Road. Turn right into Slate Mill Place. Cross the River Witham and continue straight along the tree-lined Lloyd Ramsden Walk.

Clue 08

Look for the archway in the following image and then record the place to which many thousands went for their training.

Photofile

Directions

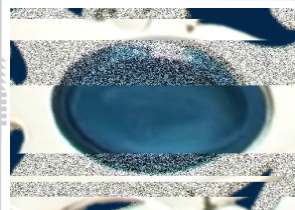

Retrace your steps a few paces and turn left to the memorial shelter bandstand opposite the bowling green.

Clue 09

We've received the following image from our CCTV - but it's come through scrambled... Identify the object seen in it and count how many there are here. Record your findings into your grid as a word.

Photofile

Directions

With your back to the bandstand, move left, then turn right, to go in a clockwise direction around the bowling green.

Continue past the small fish pond on the right.

Fact File

Wyndham Park was subject to a 1 million pound refurbishment project to turn it into a World War 1 Memorial Park. Completed in 2018, works included the new visitor centre - why not pop in for a look around when you've completed your mission?

Clue 10

Find where the small children play and then record the bird to be found there. Its scientific name is Troglodytes Troglodytes. Look it up if you don't believe me!

Directions

Make your way around the white building and walk past the model boat lake.

Follow the path along the river past the black bridge.

Clue 11

Locate the runes seen in the following image.

Nottingham is one way but where is the other?

Photofile

Directions

Continue by the river and cross it at the next small brick bridge. Turn immediately right and follow the footpath to the street. Turn right here and continue past Blue Gate. Then cross carefully into Church Street on the left.

Clue 12

Now find Sir Isaac on the wall. You have work to do here! Add the number of all the consonants on the plaque and then subtract the number of all the vowels. Record the answer as a single word.

Clue 13

Just a bit further up the road from Sir Isaac is his lifelong friend, who he attended school with. What he was first named in North America will fit into your grid perfectly.

Clue 14

As you continue up Church Street you will see 'Archway' ahead. Turn left here. You will then find that Artie Hock has jumbled his own name to name a house here. Record it.

Directions

Continue forward and enter into St Wulframs churchyard on the left to look for the next three Clues.

Clue 15

Find the men who sacrificed their lives. Now add together the last digit of each date you find there and record the total.

Fact File

When the tower and spire were completed in 1300, it was then the tallest building in the country.

By 1450, the general shape of the church was established. It was large enough to hold every person in the town!

Clue 16

St Wulfram was Archbishop of Sens. But to which people was he a missionary?

Clue 17

Turn left as you leave the Church Grounds by the same entrance. Look for an information board there to record the present use of the room where Isaac Newton carved his name on a window sill.

Clue 18

Now look for the building in the following image along Swinegate.

You need to give it a name.

Photofile

Directions

Continue along into Elmer Street, looking for another Clue as you go.

Clue 19

Elm House is a grand Estate.

Bear that in mind as a 'plc' you must find.

Directions

Now turn left into Finkin Street, cross carefully, watching for traffic from the right, continue to the end and then turn right along Castlegate.

Clue 20

Locate the place with the buzzing sign, then move on a few steps to look for a memorial. But to who? You need to record the name.

Directions

Continue along to Avenue Road. Turn right and walk up to the pedestrian crossing. Cross Avenue Road here and follow the pavement along St Peter's Hill to the statue. Look for your final Clue here.

Clue 21

In front of the Guildhall is the statue of Grantham's most famous son. Look up to find who sculpted him in bronze up on the plinth. Record his initial and name as a single word.

Ace work!

Congratulations! You've solved all the Clues! See inside the front cover for how to work out the combination code. To check if you're right, submit your answer online. If correct, you can download a certificate and you might win our monthly prize draw!

Debriefing

Great work, Agents! You've successfully evaded the enemy operatives and have, fingers crossed, foiled their evil plan. There's no time to waste, though - transmit the code via our secure online portal ASAP. We've got field agents waiting on your intel so they can deactivate the device and save the day! Alas, HQ has just heard that the evil agents have fled the scene, but they're bound to be plotting other nefarious schemes. So they'll need you, Agents, for another mission soon. Stay in touch...

ROMAN NUMERALS

I	=	1	Numerals are repeated up to 3 times for multiples for example, XXX = 30
V	=	5	
X	=	10	
L	=	50	A lower numeral before a higher numeral indicates subtraction for example, MCM = 1900
C	=	100	
D	=	500	
M	=	1000	

...Now submit your answer

Every great secret agent needs to report back to HQ, so make sure you go to www.treasuretrails.co.uk/pages/submit-an-answer to submit your answer and be entered into our monthly £100 prize draw!
